

# CS AWARE NEXT

STANDARDISATION SERVICE

[HSbooster.eu](https://HSbooster.eu)

Elizabeth Goutman  
OTS, marketing manager

# What it is

CS: A socio-technical approach,  
shaped by organisations as a  
whole

Combination of people,  
infrastructure, technology,  
process, culture and metrics

CS-Aware provides a ground-  
breaking approach to manage  
the cybersecurity of an  
organisation based on its culture  
and socio-technical architecture

Partners from all over  
Europe

# Inception

CS -Aware started as  
H2020 innovation action

previously

focus on technical issues

# CS-Aware platform

Designed for dynamic cybersecurity management through awareness, collaboration and automation of cyber threat detection through a number of features.

# HS booster.eu

how it helped?

**Consultation:** Help in finding the mechanisms on what would be the best way to discover a path towards standardization.

**In a nutshell:** It set our expectations straight

# Key findings (potential topics for standardisation)

Dynamic cybersecurity policy management

Dynamic Business continuity and disaster recovery management

**Cybersecurity information sharing using the STIX protocol**

# Dissemination activities

Greece

a number of challenges in this path

A dark-themed background featuring a robotic arm on the left and a human hand on the right, both reaching towards the center. The robotic arm is black with a textured wrist. The human hand is light-skinned with a visible tattoo on the forearm. The text "Thank you" is centered in a large, white, sans-serif font. Four cyan lines with circular endpoints extend from the corners towards the center, framing the text and the hands.

Thank you
